

Writing a Newspaper Article

Name: _____

This worksheet will help you to write an article about The Little Rotters Club. You could use it in your school newsletter and/or send it to a newspaper to tell people about your environmental work.

Write your answers under the questions

My name is

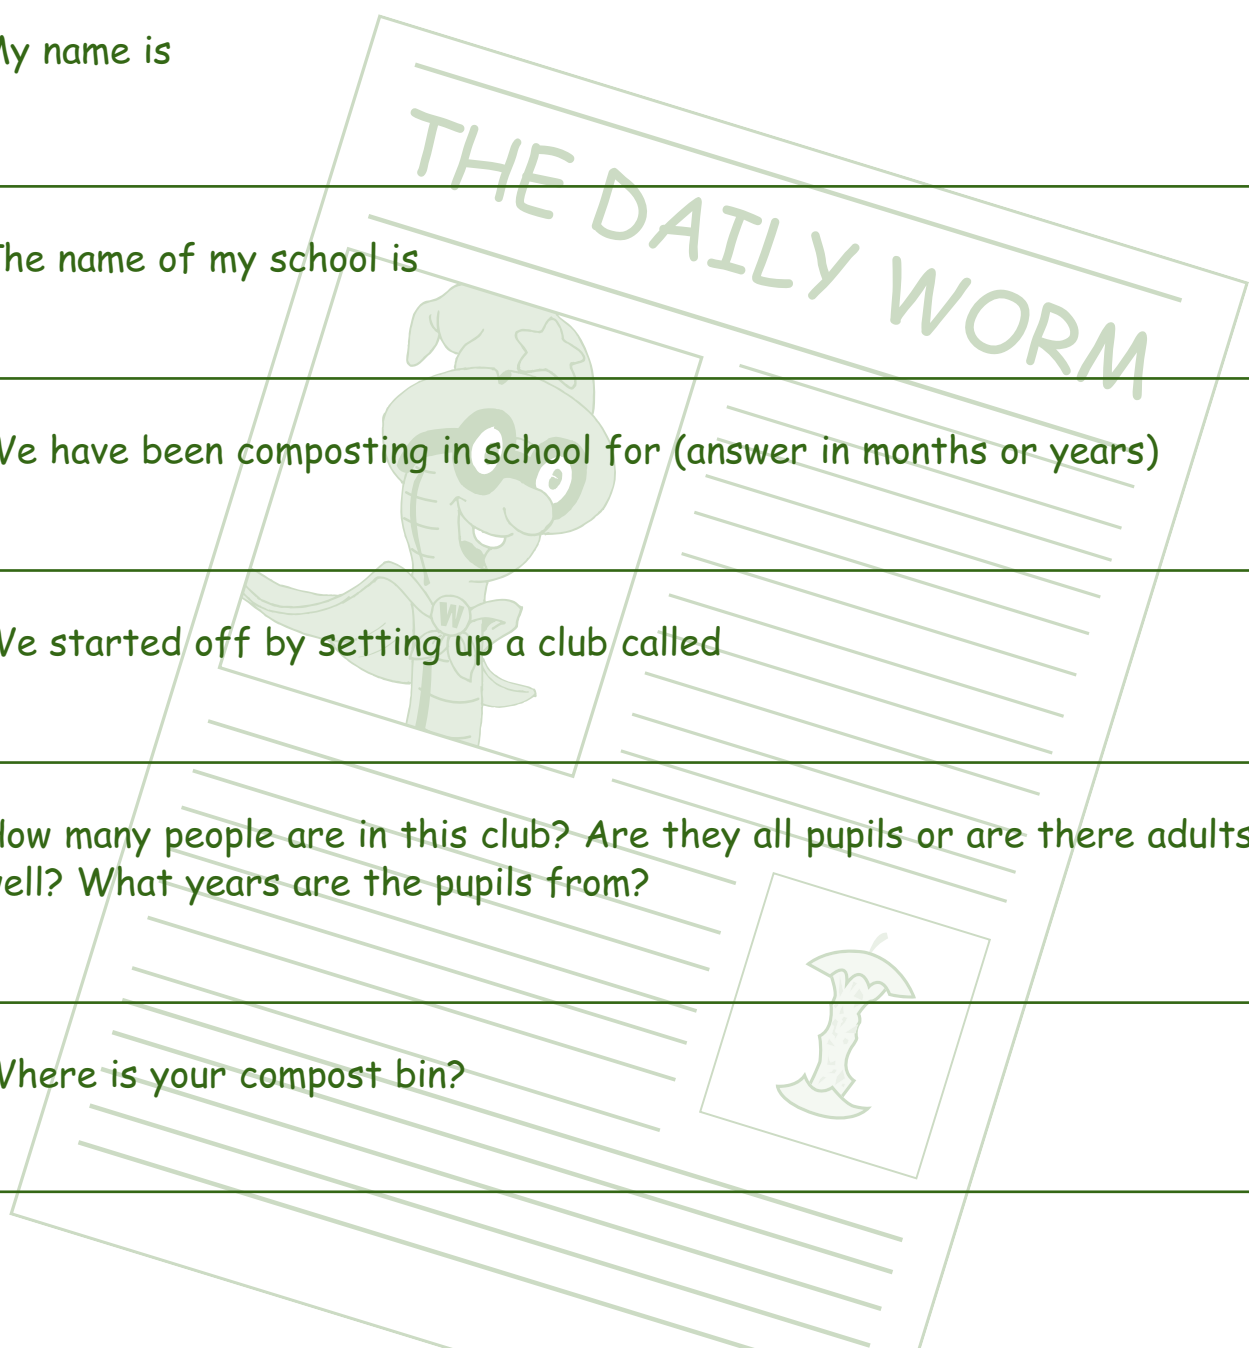

The name of my school is

We have been composting in school for (answer in months or years)

We started off by setting up a club called

How many people are in this club? Are they all pupils or are there adults as well? What years are the pupils from?

Where is your compost bin?

Writing a Newspaper Article

What have you been collecting to put in the compost bin and make compost?

Do you think starting a Little Rotters Club and making compost has been good for your school? If yes, tell people why.

Do you have a quote about composting in your school? Newspapers like to have a quote.

A quote is something that a person has said about your project. This could be your Head, a pupil or teacher. Quotation marks " " are used to show that the sentence is exactly as someone has said it. For example: Chris said "Composting has been really good for our school".

Now you have written some interesting points, think how you can link all you answers together to turn it into an article for a newspaper or newsletter.

Write your article on a separate piece of paper.
